JL unisuits are tailored to a high standard to ensure durability and accurate fit, providing the right support in the right places.

Made with Drywick and Polypro to wick away moisture and ensure unisuits remain colourfast and durable..

Cut in the classic 'tank' style, this suit has room around the arm and extra length in the back to ensure total comfort. Women's unisuits include a racer-back style, Coolmax front liner and bathing suit elastic around the neck and armholes for extra comfort. The V-front' waistline visually elongates the torso, giving a flattering finish.
